The Benefits of Blended Learning (5A/5B/6A)

At Champion Learning Academy, we are taking steps to enhance the learning experience of all our students. One of the ways that we are making this possible is by taking advantage of a blended learning environment, combining the best features of traditional onsite learning, as well as utilizing the technology available with online learning. Research has noted that the combination of these factors encourages improved tracking of student progress, communication between student, parent; staff, personalized instruction, improved student outcomes. And enhancing positive interaction among the students. This will occur in a classroom setting that will use laptops, projectors, whiteboards in aiding in teacher

instruction and student learning.

Half-Day/ Early Release Days

There will be the usual online class meetings on [WCPSS traditional Early Release days.](#)

All classes are subject to change.
